

## DEALINGS DEVELOP NO MATERIAL CHANGE

Quiet Close of Week in the  
Stock Market.

### LOUISVILLE A FIRM FEATURE

Price Movements Irregular and Con-  
fined Within Narrow Limits—Miscel-  
laneous and Industrial Securities Dull,  
With Only Small Fluctuations.

NEW YORK, Aug. 16.—The early deal-  
ings in this morning's stock market  
showed no material change from those  
prevailing at the close of business yester-  
day. Active trading was confined to the  
same stocks in which interest was  
chiefly expressed then, and the market  
in general showed no uniform tone.

The London market for American  
stocks was quoted above parity with New  
York's final prices of yesterday, but lit-  
tle or nothing was done for foreign ac-  
count in the local dealings.

In the railway list, the active features  
were Southern Pacific, Union Pacific,  
Missouri Pacific, and the Wabash stocks.

The last named were particularly firm,  
but otherwise price movements were ir-  
regular and confined within small  
limits. Among the railway specialties,  
Toledo, St. Louis, and Western scored a  
further advance, and Detroit Southern,  
and some of the other stocks of the  
same class were decidedly strong.

Louisville and Nashville were the firm-  
est feature of the regular railway list  
on reports of the same character which  
have been influential in the dealings in  
stocks for some time past.

The miscellaneous and industrial  
stocks were comparatively dull, and  
showed small fluctuations in prices. The  
United States Steel stocks were firm,  
while Western Union was somewhat re-  
luctant. Amalgamated Copper and  
Sugar Refining were neglected.

There was no news over night of gen-  
eral importance, and very little bearing  
on particular stocks. From the prelimi-  
nary estimates of the week's movements  
in money, the opinion seemed to prevail  
that the bank statement would make a  
fairly strong showing, and most of the  
early ventures in the market seemed to  
be predicated upon that probability.

## EXPLODING POWDER INJURES MILITIAMAN

Mysterious Early Morning Accident  
Startles Connecticut's State  
Military Camp.

CAMP KEELER, Niantic, Conn., Aug.  
15.—The State military camp was  
startled shortly before daybreak this  
morning by a loud explosion. A hurried  
investigation showed that Corporal C. T.  
Collins, of Battery A, had been severely  
injured in a most mysterious manner.  
Collins has had charges of the arms  
which he was carrying, and was engaged  
during the target practice with the  
heavy guns. He is unable to talk about  
the affair, but it is believed that he had  
a quantity of powder laid aside and went  
to get it this morning.

What caused the explosion is not  
known. Collins was hurled through the  
air a distance of 200 feet. He was  
quickly hurried to the hospital where  
it was found that although he was se-  
verely bruised the greatest damage had  
been done to his eyes, which had been  
severely burned.

The physicians were unable to say  
whether or not the sight would be lost.

"Shut your eyes, open your mouth  
and see what luck will bring you."

The mother smiles at the childish  
game, and doesn't realize that it is a  
game she as a woman has perhaps  
played for a great many years.

Many a woman is weak and sick,  
nervous and discouraged, who suffers  
from headache, backache, and other ills.  
She wants to be well, but she does it  
to shut her eyes and open her  
mouth for medicine and trust to  
luck for results.

She "doctors" month after  
month, after year after year, in this  
same blind, hap-hazard  
fashion, and receives no perma-  
nent benefit.

Women take  
Dr. Pierce's  
Favorite Prescription  
with their  
eyes open to the  
fact that it cures womanly ills. It cures  
irregularity. It dries debilitating draughts.  
It heals inflammation and ulceration and  
cures female weakness. There is no  
trusting to luck by those who use  
"Favorite Prescription."

"My disease was displacement and ulceration  
of the uterus, and I was in a terrible  
condition with pain and weakness and had given up all  
hopes of ever being well again," writes Mrs.  
Harry A. Brown, of Orono, Me.  
"I had doctor with four different doctors with-  
in four months, and instead of getting better  
was growing weaker all the time. I decided to  
try your 'Favorite Prescription.' Golden Medical  
Discovery and Pleasant Pellets, as I had  
heard of the many cures resulting from their  
use. I bought five bottles and felt so much bet-  
ter after taking them that I kept on until I am  
as well as ever in my life, and to Dr. Pierce all  
the praise is due. I cannot say enough in favor  
of his medicines. Before I began taking your  
medicines I only weighed one hundred and  
twenty pounds. I now weigh one hundred and  
sixty pounds. I gained forty pounds in six  
months. I shall doctor no more with home  
doctors, as it is only waste of money. I am now  
in perfect health, thanks to Dr. Pierce."

Dr. Pierce's Pleasant Pellets clear the  
muddy complexion.

It is an actual fact that the Washing-  
ton aggregation of ball tossers won both  
games from the St. Louis tribe yester-  
day. Those fans who did not see the  
game, and there are precious few of them,  
who read this will doubtless say  
that it is too good to be true, but such  
is not the case. The Senators spruced  
themselves together and walloped their  
doughty opponents in approved fash-  
ion.

The Lofthus did not have to work  
over time to take the first game. They  
batted it by a score of 5 to 2. In the  
premier inning, the visitors pulled off  
a triple play. With three men on the  
portentous, Kleiser rapped a hot  
liner to the pitcher, who promptly tossed  
the horseshoe over to third putting out  
a runner. The globe was hustled over  
to first kopek, post haste, and a runner  
was likewise caught there. Three out  
and no one hurt.

The second game was what is fre-  
quently termed "a pitchers' battle." That  
studied exponent of the zig-zagging  
school, "Grinnin' Al Orth," was in the  
place of prominence for the Senators  
and there were more than a thousand  
members of the gentler sex in the  
grandstand. This made the mirthsome  
individual exert himself; as he never did  
before, and as a result of the day's labors  
he had the same "shanked up" to his  
crest. He wire first, and work himself  
into a position where he could have ex-  
torted anything, yes even real money,  
from 5,000 shrieking, yelling, screaming  
fans, who lost their heads over the pros-  
pects of the locals boosting themselves  
back into fits.
